

Handwritten text in Tamil script on a palm-leaf manuscript strip. The text is arranged in approximately 15 horizontal lines. The script is dense and fills most of the width of the leaf.

Handwritten text in Tamil script on a palm-leaf manuscript strip. The text is arranged in approximately 15 horizontal lines. The script is dense and fills most of the width of the leaf.

Handwritten text in Tamil script on a palm-leaf manuscript strip. The text is arranged in approximately 15 horizontal lines. The script is dense and fills most of the width of the leaf.

Handwritten text in Tamil script on a palm-leaf manuscript strip. The text is arranged in approximately 15 horizontal lines. The script is dense and fills most of the width of the leaf.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are several circular holes along the top edge, which were traditionally used for threading a cord to bind multiple leaves together into a book format.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are several circular holes along the top edge, which were traditionally used for threading a cord to bind multiple leaves together into a book format.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are several circular holes along the top edge, which were traditionally used for threading a cord to bind multiple leaves together into a book format.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are several circular holes along the top edge, which were traditionally used for threading a cord to bind multiple leaves together into a book format.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are several circular holes along the top edge, which were traditionally used for threading a cord to bind multiple leaves together into a book format.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are two circular holes visible, used for binding multiple leaves together.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are two circular holes visible, used for binding multiple leaves together.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are two circular holes visible, used for binding multiple leaves together.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are two circular holes visible, used for binding multiple leaves together.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers the entire length of the leaf. There are two circular holes visible, used for binding multiple leaves together.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers most of the leaf's surface.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers most of the leaf's surface.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers most of the leaf's surface.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers most of the leaf's surface.

Handwritten text in Tamil script on a palm leaf manuscript. The text is densely packed and covers most of the leaf's surface.
